**WHEN YOU NEED  
A FLUORINE-FREE  
ALTERNATIVE**

## Introducing Forrex EVO: The Future of Vehicle Fire Protection

Embrace the future of vehicle fire protection with Forrex EVO by Dafo Vehicle. Developed through extensive research and innovation, Forrex EVO heralds a new era of safety and environmental responsibility in the automotive industry. With its fluorine-free formula and advanced suppression technology, Forrex EVO ensures unparalleled performance while minimizing environmental impact.

## Protecting People and the Planet

At Dafo Vehicle, we recognize our responsibility to prioritize safety and sustainability. With Forrex EVO, we've achieved a breakthrough in vehicle fire protection that not only safeguards lives and property but also minimizes our environmental footprint.

## Revolutionary Suppression Technology

Forrex EVO represents the culmination of a 12-month research and development program dedicated to creating a fluorine-free alternative to traditional suppression agents. Here's why Forrex EVO is the ultimate choice for vehicle fire protection:

- 1. Fluorine-Free Formula:** Unlike conventional suppression agents, Forrex EVO contains no fluorine, making it environmentally friendly and compliant with forthcoming restrictions on fluorine-based products.
- 2. Effective Suppression:** Engineered to suppress fires swiftly and effectively, Forrex EVO blankets all areas with a protective layer, preventing reignition and minimizing damage to vehicles and their surroundings.
- 3. Easy Cleanup:** After deployment, Forrex EVO requires only a simple rinse with water to clean the engine space, eliminating the need for specialized cleaning agents and minimizing downtime.
- 4. Non-Aggressive:** Forrex EVO is gentle on materials and components, ensuring that vital vehicle systems remain unharmed during and after fire suppression efforts.

## Experience Forrex EVO Today

Upgrade your vehicle fire protection system with Forrex EVO from Dafo Vehicle. Contact us today to learn more about how Forrex EVO can enhance safety and sustainability in your fleet.
